

Amendments to the Specification:

Please amend the specification as follows:

On page 5, starting at line 29, please replace the entire paragraph with the following:

To solve the above problems, the present invention provides an optical filter comprising an optical film having a surface; an adhesive layer including adhesive disposed on the surface of the optical film for adhering said optical film to an other surface, and wherein said adhesive comprises an olefin polymer that allows removal and re-attachment of the optical film from and to the other surface.
